

Amanda Powell

Executive Headteacher of The Acorns Primary & Nursery School and Whitley Village School in Cheshire West.

I live in Little Neston and have always had a passionate commitment for working with children. I have 2 daughters, Gemma who lives in Lincolnshire and is in the Armed Forces and Nicola who lives in Neston and works with children in a Primary School. I was a pupil at Neston County Primary School and then Wirral

Grammar School for Girls. I later went to Padgate College where I trained as a teacher and after moving to teach in Cambridgeshire, returned to work at Neston Primary School.

I have lived in the area for over 40 years and have attended functions of the Northern Lights Charity for the last 6 years.

I am enthusiastic, conscientious, highly motivated and will be dedicated to the task of working for this very worthwhile charity. Most importantly I always maintain a positive outlook and sense of humour!

My aim is to help Northern Lights maintain its distinctive place as a fundraiser across the region.

I am delighted to have been asked to become a committee member of Northern Lights and feel privileged to have the opportunity to take a role in providing children with an experience and opportunity they will never forget.
